Product: Intelligent Test Post

Performance specification:

Measurement input:	> 1Gig ohm Input impedance Standard Pipe to Soil Auto Interrupted coupon potential
Local Data Storage:	Non Volatile E ² PROM 1 million data readings
Communications:	Dual operator GSM/GPRS USB 2
Positioning:	Ublox Global Positioning engine
Auto modes:	Sleep, Self Wake up and auto data full transmission standard, Auto measurement, local store periodic trans mit etc.
Time :	GPS synchronized clock
Power source:	12V DC Standard 7 Ahr sealed lead acid battery with or without solar charge option. Solar with smaller back up battery.
